The internet can help us in so many ways

To keep us up to date

To help fundraise and raise awareness

Gotham City Chronicle

**BATKID
SAVES CITY**

Spread feel good stories

Learn from others

Debate, discuss and share ideas

Is the internet always positive?

Disagreements online

Mean comments about what you post

Inaccurate or unreliable information

4.1

Upsetting or offensive content

What should we do if we read something upsetting online?

- Don't panic – Tell an adult that you trust
- Block it
- Report it
- Don't respond to it

**THINK
BEFORE
YOU POST!**

THINK before you share.

the Internet
has no delete button.

“The digital footprint”

Our digital footprint is important

Our digital footprint can impact:

- ◆ Our online reputation and image.
- ◆ Our real life reputation and image.
- ◆ Our employment prospects.
- ◆ Our admission to school, university or groups.
- ◆ Our relationships with friends, family, teachers and other people in our network.
- ◆ The reputations of friends, family, teachers and other people in our network.

Privacy Settings

Check your settings on your device and
the apps you use

Location Services

Be aware of **ALL** the apps using your
location, who can see it and where it's
stored.

Passwords.

Use strong passwords, which aren't easy to guess (NOT YOUR
PET'S NAME) and don't share it. 3 random words will suffice.

Do you REALLY know who you're talking to?

Let's have a look at Lucy's story

Stay safe....

Lucy and the Boy: Be Share Aware - NSPCC

Sending Mean Messages on the Internet

Stuart is friends with James.

One day, Stuart and James fall out when James accidentally trips Stuart up when they are playing football.

Stuart is really annoyed so when he gets home, he goes on his friends group chat in Whatsapp (which Lily and Ruth are also in) and tells James he is stupid. He says James *'can't do anything right'*, that *'everyone hates you'* and that he would *'smack'* James if he ever tripped him again.

James feels really upset about what Stuart said. In the morning he asks Stuart why he said mean things to him and Stuart says that he was only joking. Stuart then apologises and James accepts the apology and says that they can be friends again.

IDIOT
LOSER
YOU SLICK!

**Is sending mean messages
a CRIMINAL offence?**

IDIOT
LOSER
YOU SLICK!

YES!

???

But did STUART commit a criminal offence?

???

The Criteria?

1) Did Stuart send a message to another person?

2) Was the message:

- Offensive and mean?
- Threatening?

3) Did Stuart send the message via the internet or phone?
E.g. social media, text, whatsapp, email, instagram?

Consequences

- Stuart might have to come into the **police station** and be **interviewed**
- It might be recorded on the police **database** and Stuart's criminal record
- Stuart's parents would also be told about what had happened

But more importantly:

- Stuart has hurt James' **feelings** and made him feel scared and upset
- Stuart will have **damaged his own reputation** when his other friends find out what's happened – no one wants to be friends with mean people.

It doesn't cost you anything to be nice!

BE SMART ONLINE

**S**

SAFE Keep your personal information safe. When chatting or posting online don't give away things like your full name, password or home address. Remember personal information can be seen in images and videos you share too. Keep them safe to keep yourself safe.

**M**

MEET Meeting up with someone you only know online, even a friend of a friend, can be dangerous as this person is still a stranger. If someone you only know online ever asks you to meet up, for personal information or for photos/videos of you then tell an adult straight away and report them together on www.thinkuknow.org.uk

**THINK
UK
KNOW****A**

ACCEPTING Think carefully before you click on or open something online (e.g. links, adverts, friend requests, photos) as you never know where they may lead to or they may contain viruses. Do not accept something if you are unsure of who the person is or what they've sent you.

**R**

RELIABLE You cannot trust everything you see online as some things can be out of date, inaccurate or not entirely true. To find reliable information compare at least three different websites, check in books and talk to someone about what you have found.

**T**

TELL Tell a trusted adult if something or someone ever makes you feel upset, worried or confused. This could be if you or someone you know is being bullied online. There are lots of people who will be able to help you like your teachers, parents, carers or contact Childline – 0800 11 11 or www.childline.org.uk

**BE SMART WITH A HEART**

Remember to always be smart with a heart by being kind and respectful to others online. Make the internet a better place by helping your friends if they are worried or upset by anything that happens online.

Keep your personal information safe

Never meet up with someone you have met online. You have no idea who they really are.

Only accept friend requests from people that you know in real life.

Information on the internet isn't always true – check it before you use it.

Tell an adult if something or someone ever makes you feel upset.

Be respectful to others online.

Whose responsibility is it to make the internet a better place?

Industry?

School?

You!

Your parents/family?

Welcome to Thinkuknow

Thinkuknow is the education programme from NCA-CEOP, a UK organisation which protects children both online and offline.

Explore one of the six Thinkuknow websites for advice about staying safe when you're on a phone, tablet or computer.
